The River Museum is a great learning experience for students and adults of all ages. We are very thankful for the career information and real life experiences the River Museum was able to provide to our students. We hope to continue to explore employability skills through the River Museum."

CAREER EXPLORATION FOR VOCATIONAL STUDY GROUP PROGRAM

CHALLENGE: To prepare students for interviews, the qualities interviewers look for, and types of job opportunities the museum offers.

SOLUTION: The River Museum coordinated a student meeting with managers from our front-facing departments (education and guest services), in addition to meeting with one of our animal keepers. Staff members spent time talking about what we are looking for during an interview and went over some application examples.
